link direct download. after extracting the downloaded zip file, just open the folder "explorer" and copy the keygen file. next, use the keygen in windows to generate your free registration keys. This file came with no keygen at all. All I did was extract to the desktop, and got into the keygen that ran for 3 minutes, and installed with no problems at all. I hope this helps someone! Hi, this software is good but we need a keygen to be free for use, do you know one? because it doesn't work with our installation we need to fix it (with windows 7 64 bits). We also tried to use Windows 7 SP1 32 bits but it doesn't work for us! Hi, Thank you very much for the keygen. I have a problem. I downloaded the file, unzipped it. And in the folder, there was a folder called But when I double clicked the game folder, I got an error message that says, I think, something was missing with the setup file. I think I need to use an executable file, not a.rar. I need a link for that executable file please. hi, i know this is an old thread but i cant find the password generator anywhere. i tried opening the executable with windows and renaming it to "copy_of_free_v4.exe" then running it but no password comes up. anyone got a link? i need this for my friend, he is an anime fan and he likes to play games and he plays the pixel games, he got hacked up, so he is looking for a free key to play the game by it self but i cant find it anywhere please help me? hi i need a password to play this game by it self, but i cant find it anywhere? 82157476af
